CROSSFIELD

BOARD OF TRADE MEETS THURSDAY, DECEMBER 15

The regular December meeting and luncheon of the Board of Trade will be held in the Oliver Cafe on Thursday evening, December 15. Rev. A. D. Currie will be the speaker of the evening, and will relate of his recent trip to the Old Country.

There will be considerable business for discussion and all members are cordially invited to attend.

Tuxis Square Elect Officers

The Crossfield Tuxis Square held its first meeting of the social season, Thursday, Nov. 24th in the Tuxis Club House.

Rev. Young conducted the meeting owing to the absence of the leader, Mr. Tweedle.

Officers elected are as follows:
President: Stanley Pogue
Vice-Pres: Earle Richardson
Secretary: Gordon Johnson
Treasurer: Merle Heywood
News Reporter: Herbert Seville.

CLOTHING NEEDED

H. R. Fitzpatrick who for the past two years has looked after the receiving of clothing and distributing assistance to needy families in the surrounding community, informs the Chronicle that the cupboard is bare, and an urgent appeal is issued to those who can assist in any way to do so.

There are children in the district who can not go to school because they have no warm clothing to wear. If you "have clothing that you have no further use for" just bundle it up and take it down to Mr. Fitzpatrick at the Atlas Lumber Yard.

Constable Jarman investigates all cases, and distributes a good deal of the clothing personally.

The Legion Meeting

The usual monthly meeting of the Crossfield Branch of the Canadian Legion was held in the Town Hall on Saturday last. Lively discussions took place on several matters which were settled to the satisfaction of those present. The next meeting day following on New Year's Eve it was decided to postpone the meeting and hold their Annual Meeting on Saturday, January 7th, 1933 at 2 p. m. in the Town Hall.

It was decided at the meeting that a vote of thanks be accorded to the C. G. I. T. girls and all those who contributed to the success of our Armistice Service.

Fellowship Club Meeting

There will be a meeting of the Fellowship Club in the Bank apartments on Thursday, November 8th at 8:30 o'clock to discuss possibilities of organization for the coming year. Will those interested please attend.

BEATS DIETING

Adam Cruickshank lost 20 lbs. during his recent hunting trip. This line of sport should prove very popular with some of the plump ladies in Crossfield who are dieting in hopes of getting back their youthful appearance of by-gone days.

Galloping Louie an Also Ran

Louis Becker who spent most of the summer in getting gopher tails did not get into the big prizes offered by the Provincial Department of Agriculture. He pulled down a five dollar consolation prize and had a lot of fun, while the killing off of over 1100 gophers in this district is certainly worth something to the farmers.

Dr. R. N. W. Shillington, prominent Lethbridge medical man and sportsman, has been appointed as medical officer and superintendent of the Col. Belcher Hospital, in succession to the late Dr. George Bishop.

FOR SALE—Berkshire Boar. Apply to Wm. Urquhart

Chautauqua

Chautauqua opened in Crossfield on Tuesday evening and the programmes so far have been greatly enjoyed, judging by the applause.

The grand finale on Friday evening will be the play, "The Mender" which is sure to appeal, as it is claimed to be the strongest feature on the Chautauqua circuit.

The attendance at this year's Chautauqua has been less than on any former occasion, and as a result some 29 public spirited farmers and business men who signed the Chautauqua contract are stuck in the neighborhood of \$8.00 apiece. This amount along with the tickets they purchased for the members of their families, to say nothing of the time spent in selling tickets, makes the shot altogether too high.

It is evident that the majority of the citizens of Crossfield do not want Chautauqua, judging by the number who have not attended. The farmers, especially east of town, have done their best to put Chautauqua over, but in town there is too little support and too much talk about the guarantee by those who do not have to foot the bill, to ever put it across.

The Chautauqua contract, is one sided, no doubt about it, and some of their plays are in the amateur class, but taken as a whole, it is well worth the two dollars for a season ticket, and the children sure get a dollars worth. However, there is not likely to be any argument next year about Chautauqua and as to who will hold the bag.

ELECTRIC LIGHT AND GAS PRICES

High River Retail Merchants Urged to Appeal to Utility Board for Reduction.

At a meeting of Retail Merchants here, it was urged by one of the speakers that in view of the economic conditions and the difficulties experienced by citizens generally, in carrying out their business that the Calgary Power Co. and the Natural Gas Company be approached with a view to a substantial reduction in rates of gas for heating and electric current for light and power. Notwithstanding the big reduction in salaries and cost of living, these companies have not made any reduction and the speaker suggested that it was about time the Public Utility Board awakened and did something on behalf of the poor consumer—Times, High River.

The Crossfield Board of Trade should get busy with an appeal to the Public Utility Commission.

COMMUNICATION

To The Editor
Chronicle,
Sir:

In your issue of Nov. 17th I note that the Council of M. D. of Rosebud had appointed officers for the next annual meeting. All such officers must be British subjects, and from information to the contrary (received from one of those listed) I think it would be in order to reconsider these appointments before the annual meeting takes place. We do not wish our polling booths to be handled by American citizens, and ratepayers should voice their disapproval of such practice.

Pains Around Her Heart

Tired Out After Doing Housework

Mrs. Henry Barr, Muriel Lake, Alta., writes:—"Last fall I had had pains around my heart, and such morning, after doing a little housework, I seemed to get dizzy and feel all tired out."

Seeing that Milburn's Heart and Nerve Pills were good for these troubles I sent for a box and after taking the Pills for a few days I felt a whole lot better. Since then I have had no return of the dizzy spells and pains around the heart."

For sale at all drug and general stores; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

British-U. S. War Debts.

At the time this article is written, President Hoover and President-elect Roosevelt are in conference giving consideration to applications made by the British, French, and other Governments which are indebted to the United States for loans made by the latter during the war, for an extension of the one-year moratorium covering repayments granted last year, and generally for a revision of the terms of settlement of such debts.

Inasmuch as these enormous international war debts are admittedly one cause of the existing financial and economic depression affecting all nations, whether they are directly concerned as debtors or creditors or not, it is well that the general position in regard to these debts should be understood in its broad outlines.

The war debts of the nations of Europe to the United States total approximately \$22,143,539,000, of which amount Great Britain owes \$11,105,965,000, and has paid almost \$2,000,000,000; France owes \$6,847,674,000 and has paid \$186,075,891; Italy owes \$2,407,477,000 and has paid \$27,884,492, with the smaller nations owing varying amounts. Repayment of these huge amounts were to be made within a period of approximately 60 years.

On the other hand, Germany was obligated to pay these allied European nations the sum of \$26,377,000,000 during a like period of time. In other words, as Germany paid her debts to the Allies, they in turn could pay the United States. But Germany cannot pay; the whole world now recognizes that fact. So at the Lausanne Conference last June, Great Britain and the other nations agreed to let Germany off for \$714,000,000 instead of \$26,000,000,000, provided the United States would radically reduce or cancel the war debts due to that country. This the United States has thus far refused to do.

The Allies carried on the war against Germany for three years before the United States entered the conflict. Some of them had completely exhausted their credit in those years and would have collapsed, the result of which might easily have been a German victory. Great Britain came to their rescue. But while Great Britain could have continued to finance all her own stupendous war expenditures, she could not do so and at the same time finance her allies. So Great Britain borrowed from the United States and, in turn, financed these other allied countries. They cannot repay Great Britain, nevertheless Great Britain is obligated to repay the United States, and, as the above figures indicate, has been doing so. As a result Great Britain was drained of gold; had to go off the gold standard; and now, because of failure of Germany to pay her, or pay other European nations which are so heavily indebted to Great Britain, it is no longer possible for Britain to continue paying out to the United States when others are not, because they cannot pay her.

Furthermore, in the huge borrowings by Britain and other countries from the United States, the latter country did not actually lend them gold. What the United States Government did was to advance them credit whereby to buy food supplies, munitions, raw materials and manufactures of all kinds in the United States. In other words, the money was practically all spent in the United States in enormously high war prices for farm products, in war-time wages to workers, in war-time profits to manufacturers and people generally. The people of the United States prospered while Europe was impoverished.

With the ending of the war, and the necessity of paying off these huge credits the United States Government demanded payment in gold. The United States, we repeat, did not lend gold but sold supplies of all kinds on credit; then they refused to take supplies back in repayment but demanded gold. In order to prevent repayment in supplies they imposed a tariff of prohibitive heights and shut out foreign goods. In so doing they killed off the export trade of the debtor nations, thus making it still harder, in fact impossible, for them to pay.

Great Britain has never defaulted in payment of its obligations to any one at any time. Repudiation of obligations has never been countenanced by Great Britain, although it has been the victim of such practices by other countries, including several of the States of the United States. Britain has no desire to default now, and years ago offered to write off the debts owing to her if her own debts, created by borrowings to assist these other nations, were similarly written off. The world's financial and economic troubles today are not due to Great Britain, and had her advice and example been followed after 1918 there would be no trouble.

If the United States still remains adamant, if it refuses to cancel or very substantially reduce the amounts owing to that Government, and continues to insist on payment in gold, then, in our humble opinion, the stand to be taken by the British Government should be this: Payment in gold being impossible, and in view of the fact that the debt was created through the supply of goods produced or manufactured in the United States, thus creating employment and wealth in the United States, Great Britain should now offer to repay the United States by exactly the same method—that is, by supplying the United States with goods produced or manufactured in Great Britain, or through services, such as shipping which Britain can supply, thus providing employment for Britain's unemployed, and producing wealth for Britain's over-taxed people and institutions.

Until the United States is prepared to accept such British credits in exchange for the credits extended to Britain, that is, to accept British goods and services in payment for the United States goods and services supplied, Great Britain, while not repudiating anything, would refrain from making any further payments in gold and let the United States wait for any further settlement until that country is prepared to accept the same treatment from Britain that, in the hour of the world's extremity, the United States accorded to Britain. Could anything be fairer?

The McIntosh Is Popular

Popularity of the "McIntosh Red" apples grown in Canada is evident from the fact that the whole of this year's crop grown in Western Canada has already been marketed. More than 365,000 boxes of these apples have been shipped to the domestic and export markets.—Department of Agriculture.

Canada At Geneva Conference

Delegates Gave Full Support To Every Constructive Proposal

Canada gave whole-hearted support to any and every constructive proposal for the limitation and reduction of armaments which was read before the Geneva disarmament conference, Sir George Perley, who headed the Canadian delegation, informed the House of Commons, Sir George Perley to the House a letter which he wrote to Prime Minister R. B. Bennett, summarizing briefly the proceedings before the Geneva conference from its opening in February until the adjournment of the first session in July.

"The work of the first session cannot be considered an unequalled success, and yet it is not fair to say that nothing was accomplished," Sir George informed the Prime Minister. The ordinary complexities of disarmament, he said, were complicated still further by several special events which added to the difficulties of the delegates in reaching agreement. The situation in the Far East, and the exigencies of politics in certain European countries, were among factors. "As a result not as much was accomplished as was hoped for," Sir George wrote.

Sir George was accompanied to the conference by Hon. Maurice Dupé, solicitor-general, and Miss Winifred Kydd, president of the National Council of Women. To both of his colleagues he paid tribute on the floor of the House. "There were only two ladies who were full delegates to the disarmament conference," he wrote the Prime Minister, "and we are proud of the fact that one of them was a Canadian."

Subjects of great importance will be considered at the next session of the conference, Sir George informed the Prime Minister in his letter. "There is reason to believe that if the views of Germany and France can be reconciled, decisions for far-reaching importance may be taken at the forthcoming conference," Sir George wrote.

A Great Natural Port

West Coast Every Legitimate Means To Advertise Churchill

The port of Churchill needs today accurate publicity well distributed in Great Britain, New York and eastern Canada. E. Cora H. and, commercial and agricultural editor of the Winnipeg Free Press, said in an address before the Winnipeg real estate board and the On-To-The-Bay Association. Miss Hinds urged her audience to work to induce western buyers to trade to send a strong delegation to meet the first boats coming in next season and make a real occasion of it. She also urged preparation and distribution in Britain and eastern Canada of statements as to the advantages of the bay route, avoiding any exaggeration.

"Every effort to be made," she said, "to induce western merchants to order goods brought in by that route. All ships coming in next season should have some inward cargo." Churchill is a great natural port, the Hudson Strait is feasible and can easily be made more so and for a longer season, but the work must be done from the west; the east will hinder, not help."

Well Repaid For Kindness

King George and Queen Mary Enjoyed Meeting Helen Keller

Their kindly majesties of England, the King and Queen, never permitted a more gracious act than, when they received formerly Helen Keller, the marvelous deaf and dumb and blind American woman, who has surmounted her terrible handicaps in such a wonderful manner. And their kindness was well repaid, for after conversing with Miss Keller, they marveled at her attainments just as have all of us who never had the privilege of meeting her.—Boston Post.

Big Angler, Small Fish

Mrs. Dale, of Southend-on-Sea, who weighs over 200 pounds, and was the heaviest competitor of the 823 taking part in the Southend fishing festival, had the smallest prize-winning catch, which weighed 5 ounces.

The 500-year-old elm at Chalfont St. Giles, England, beneath which Milton sat frequently, was felled recently.

Brasil is requiring all gold miners to sell their product to the government.

Automobiles produced in the world last year totalled 3,042,000.

A gun, if fired under water, will generally explode.

HAPPY TO BE 136 LBS

Lost 35 lbs. — More To Follow

Most women would be alarmed if their weight showed 136 lbs. But not this one. You see, she has lost 35 lbs. and she has found a way to take off that disconcerting overweight.

She writes—"Six months ago when my weight was 174 lbs. I started to take Kruschen, and have gradually got down to 136 lbs.—and am still going down. I have not altered my diet at all and I only take a half-teaspoonful of Kruschen in a glass of hot water every morning. I also find Kruschen very good for biliousness, from which I used to suffer a great deal. But it has completely let me now—in fact, I feel a different person, and have only to thank those wonderful Kruschen Salts."

—(Mrs.) M. K. Taken every morning, Kruschen effects a perfectly natural clearance of the bowels, and removes all and excessive watery waste matter. Unless this a wastage is regularly expelled, Nature will eventually store it up out of the body in the form of ugly fat. One bottle is enough to prove to you that Kruschen will make you feel younger—braver—more energetic—you'll enjoy life every minute of it.

Thinks Canadian Fox Ranch Will Disappear

Fur Importers Predict Its Merging With General Farm

Complete disappearance of the fox ranch in Canada is predicted by Leon Chapal, managing director of Les Magazine Generaleux de Marche Francaise, fur importers. Mr. Chapal feels that fur farming will become merged with general farming, as there is not sufficient room to make it worth while for a man to devote his whole time to it, while it fits in admirably with mixed farming.

Mr. Chapal was in Montreal en route to Prince Edward Island to make a survey of the fox ranching industry there. No competition exists between Russia and Canada, he said, as the furs produced by the two countries are of different types. Canada deals in silver and other furs of that variety, while Russia produces white fox and astrakhan.

All Canadian furs, except the small quantity bought in the Dominion, are purchased by Parisian interests. Mr. Chapal said that even Americans are buying Canadian furs in Paris because buying Canadian furs in Paris has his firm had sold more furs in August and September of this year than ever before in its 40 years of existence.

Useful In Camp—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles, and should a cut, contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

Whistling Pigeons

Birds Used By Ontario Provincial Air Force To Carry Messages

Travelers in the north woods of Ontario last summer may be astonished when they hear and see what they may take to be a new species of bird, and into their heads may pop visions of whistling swans and wild pigeons. They may see the birds, real pigeons, and hear the whistle, but the two are separate entities, joined it is true but only for a space and then to carry out an idea.

Next spring, after a period of training, teams of homing pigeons will be transported to various fur patrol points where communication by wireless is now difficult or impossible. Reports of fires, forced landings and important messages may be relayed by the use of these birds to the base camps of the Provincial Air Force. The whistle! That is to scare away hawks and other predatory birds that might attack the homers, and is attached to their legs along with identification tags.

Makes Breathing Easy. The constant action of the air passages and the struggle for breath, too familiar evidence of asthmatic trouble, cannot daunt Dr. J. D. Kellogg's Asthma Remedy. This is the famous remedy which is known far and wide for its complete effectiveness even under very severe conditions. It is no untried, experimental preparation, but one with many years of strong service behind it. Buy it from your nearest dealer.

The Orient imported, in the first half of this year, 261 per cent. more American wheat than in the corresponding period of 1931.

Douglas' Egyptian Liniment relieves toothache and neuralgia. Invaluable in cases of croup, sore throat and quinsy. Keep a bottle handy.

There are supposed to be 303 holes in the science of jiu-jitsu by which a man can be quickly thrown.

W. N. U. 1970

Boost Woolen Trade

Believes New Trade Agreement With Britain Will Be Beneficial

Both Canadian and British woolen manufacturers should enjoy greater business in the Canadian market, in the long run, as a result of the changes in the textile tariffs affected by agreements at the Imperial Conference, declared H. Barrett, of Toronto, in his presidential address to the annual meeting of the Canadian Woolen and Knit Goods Manufacturers Association.

Addressing the members who had gathered from all parts of Canada, Mr. Barrett devoted the greater portion of his address to the Imperial Conference and its effects on the woolen industry.

"The improvement of Great Britain's position in the Canadian market," he said, "will be partly at the expense of employment in the Canadian mills and partly at the expense of mills in non-empire countries. But as the preferences on our primary products become effective the market in Canada for wool products should increase so that the total effect should be to increase business done in Canada by both Canadian and British mills."

Decide To Advertise

Brazil Taking Best Way To Solve Coffee Problem

Having failed to solve the coffee problem in Brazil by destroying the beans and after trying out numerous schemes, the Coffee Council of Brazil has finally decided the best thing to do is to advertise the coffee and sell it.

One million dollars has been set aside for an intensive advertising campaign in North America. There is no better way to move goods than to advertise them. Successful business men discovered that long ago.

Persian Balm—Invaluable to the whole family. To the mother, a flawless aid to loveliness. To the child a soothing, healing balm. And to the father, a splendid hair restorative and cooling shaving lotion. Persian Balm tones and refreshes the skin. Makes hands delightfully soft and white. Indispensable to dainty women. A little rubbing and it is absorbed by the tissues, making the skin truly rose-leek in texture.

B.C. Salmon For Eat

Fifty-six thousand cans of British Columbia salmon arrived at Montreal for distribution through Ontario and Quebec. It represented the largest single shipment of the fish ever made by steamer from Vancouver to Montreal and came on the freighter "Canadian Winner."

As love thinks no evil, so envy thinks no good.

The Newest Shooting Club

Buenos Aires Criminals Practice Shooting At Cardboard Policemen

A shooting club for criminals where they could practice firing at cardboard figures of policemen was discovered by authorities at Buenos Aires with the arrest of one of the band. A letter from the woman proprietor of the club, found in the captured man's possession, revealed the location of the range.

On riding the horse the police found a 90 ft. underground shooting range and three gunners assiduously practicing their marksmanship. The range was lined with soundproof boarding and fitted with the latest appliances. Blue cardboard figures of policemen, both moving and stationary aimed the targets. The scores of the shooter were kept in a card index.

Odyssey Of Death

Clash With Australia Head-Hunting Tribes Has Given Results

An Odyssey of death and danger was recited recently when Norman Cook, Los Angeles, returned from an expedition into the Australian desert to get motion pictures of head-hunting tribes.

Seventeen of his Japanese aides were killed by the savage aborigines, he declared. Tribesmen captured part of his films and destroyed them, he added.

"Those of us who were armed escaped," he said. "The head-hunters are deathly afraid of powder or bullets."

Along the River Thames the Royal Life Boat Society has 300 life-saving stations.

Building activity is growing in parts of France.

KEEPING FIT

Rx
Neutralize the effect of excess acid—with 2 teaspoons Phillips' Milk of Magnesia at night

Indulgence in rich foods, tobacco, or anything else that piles up acid in the system should be offset with a little Phillips' Milk of Magnesia. This neutralizes the acidity and you feel fine. Plenty of men know there is nothing like it for "mornings after." Get the genuine; there's something about the Phillips formula, and the way Phillips' is made. Substitutes don't act the same.

ALSO IN TABLET FORM: Phillips' Milk of Magnesia Tablets are now on sale at drug stores everywhere. Each tiny tablet is the equivalent of a teaspoonful of genuine Phillips' Milk of Magnesia.

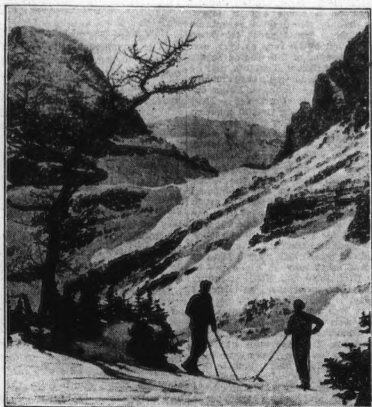

Made in Canada

Winter Sports In Canada Are Attracting Increasing Numbers Of Visitors To Dominion

The invigorating climate of a typical Canadian winter, now regarded as an advantage rather than a hardship, owing to the unusual variety of healthful and appealing sports, is attracting increasing numbers of visitors to the Dominion.

Across Canada there are many beautiful and attractive snow-capped mountains, hills and valleys, which offer exceptional opportunities for enjoying a wide variety of outdoor winter sports. The principal activities throughout the country are skiing, snowshoeing, skating, tobogganing, curling, hockey, bob-sledding and

but a preference is shown for hockey and curling. In the province of Quebec the major sport events centre in and around Montreal, Quebec City, Murray Bay and the Laurentian mountains. Lovers of winter sports will find vast territories in Ontario which are ideal in location and in scenic beauty. Ottawa, the federal capital, is adjacent to some of the finest skiing country on the continent, while the best of ice-yachting may be enjoyed in Toronto Bay and along the waterfront of Lake Ontario. In the Muskoka and Algonquin Park districts, hotels and cabins are open for the accommodation of winter visitors.

dog derbies, all of which may be thoroughly enjoyed, under ideal conditions. With the exception of an occasional day during mid-winter, the temperature is not too cold for participating in outdoor sports.

While motor travel is not general during the winter season, there are many long stretches of highway which are kept conditioned throughout the winter months. The traveller will always find train service a modern and luxurious means of transportation. Hotels in many of the leading summer resort districts remain open the year round, providing good accommodation for those wishing to participate in local winter events.

Each province possesses winter attractions more or less peculiar to its own particular surroundings. Practically all forms of winter sports are available in the Maritime Provinces,

In Manitoba the Winnipeg bonspiel also the winter carnival held at The Pas, are annual events of international interest, while Banff, situated in the scenic Canadian Rockies in Alberta, is one of the most important centres for winter sports. Record performances in ski-jumping have been witnessed at Revelstoke. The islands and mainland of the southwestern part of British Columbia offer golf, tennis and other summer sports, for the winter visitor.

Information concerning winter sports in Canada may be obtained from the National Development Bureau, Department of the Interior at Ottawa. Those who desire such information should state, if possible, the particular district or districts in which they are interested, in order that the most complete data may be supplied.

Craze Of Earlier Day

Netting Was Amusing Pastime and Shuttle Was Expensive

This being a knitting era as far as necessities and luxuries are concerned, it reminds one of an earlier day when the craze was netting. The shuttle, or netting-needle, was very expensive in the 18th century, and the pastime an amusing one. Women used this dainty tool in making a kind of narrow lace known as netting. Today we would call it fooling.

This gave fashionable women an excellent opportunity to display daintily and jewelled hands. Enamelled netting needles cost as much as \$40 in some cases. The Marquis de Pompadour had a pair that cost \$27.60, and the Comtesse de Provence gave Mme. de Beaumont a gold netting-needle decorated with miniature paintings worth a fabulous sum. The estate of the Duke of Lorraine was found to contain, on his death, in 1781, seventeen netting-needles in amber, rock-crystal, gold, mother-of-pearl, agate, petrified wood—all set in gold.

Apples Or Oranges

Apples are a luxury when it comes to marketing them, and though the Canadian yield this year was good there is a falling off in the export demand of nearly 500,000 boxes as compared with 1931. We can indulge in a baked apple for breakfast instead of a foreign-grown orange, and be the better for it.

A farmer handed over three cows to his tailor to settle an old debt. Paying in kind?

Counterfeit half-crowns have been found circulating in Auckland, New Zealand.

By Ruth Rogers

THE JUMPER DRESS HOLDS MUCH JOY FOR SCHOOL GIRL

Isn't this one fetching? It's very gay too! The dress is brown woolen. Yellow and brown plaided woolen is used for the separate gumpie. Note how it buttons down the back. It can also be worn with a white fine wale plique, tomato red woolen or yellow cotton batiste gumpie, offering many changes to the wardrobe. It's very simple to fashion it. And it requires the minimum of material.

Style No. 853 is designed for sizes 4, 6, 8 and 10 years. Size 8 requires 1 1/2 yards of 36-inch material with a cunning idea that is exceedingly smart is a twoed mixture in red tones with plain toning wool crepe gumpie. Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

One's Place In Life

Having a place in the world is one thing, but being in one's place in the world is quite another thing. There is a place for every man, but not every man is in his place. And the man who is out of his place in the world is out of place in the world. If a man would prove his right to be in the world, he must show that he is in his place as well as in the world.

A shoe factory has been opened in the military barracks at Dundalk, Irish Free State.

This spectacular picture, made during the 150-mile race for the championship of the United States at Oakland, California, shows an accident at the instant it happened. The car, driven by Les Spangler (nearest the camera), is shown as it sidwiped another entry, as both were going at a terrific speed on a turn. Spangler's car hurtled completely over, but the occupants escaped with comparatively minor injuries.

Weather Forecaster Dead

Prophecies Of Chicago Man Caused Many Wagers

The familiar phrase "no bets with Barrett" will no longer be heard on the Chicago Board of Trade. The picturesque John F. Barrett is dead. Barrett, considered the city's most accurate amateur "long-distance" weather forecaster, died recently after a brief illness.

He won numerous bets from his friends on the board by his successful weather forecasting. In 1931, he won \$1,250 on his predictions. Barrett said there would be no zero on the thermometer from December 1 to March 21. He was right.

As a matter of fact, he was right so many times that the "smart boys" decided they were licked. There were no more "takers" and the "no bets with Barrett" was frequently aired.

Barrett's weather prophecies were watched closely. It was a frequent occurrence to note in local newspapers what "Barrett, Chicago's unofficial weather-man," predicted.

A recent check-up on his forecasts, that extended over a period of more than 50 years, showed him to be correct 95 per cent. of the time.

Although 73, Barrett was one of a small group who had held continuous membership on the Board of Trade for 50 years or longer, having become a member of the exchange April 1, 1881. He was a director of the board 1897-99.

The "weather prophet" was known as a "wise" buyer of cash grain. His skill in foretelling the weather and the size of the future grain crops aided him in business dealings.

While many grain operators looked to Barrett for "tips" on the weather, there were a few who figured his forecasts only lucky. A few bets, however, convinced them otherwise.

Barrett's success was attained by developing a system of observing the course of the wind on Ember week, a period in the Catholic Church Calendar.

Promiscuous Shooting

Accidents During Hunting Season Each Year Are Appalling

Has any man any right to be a shot without knowing what he is firing at? The tragedy which has haunted the woods this Fall is almost unbelievable in its magnitude and its carelessness. A man is shot, the shooter taking him for a partridge. A man is shot, the hunter mistaking him for a bear. A woman is shot, the sportsman thinking he was firing at a mouse. An ox is shot in mistake for something else. A man was shot as he went into the woods to drive his cattle home. A man moves the bushes and a shot brings him to the ground, the shooter firing at the moment in hope of bringing down a mouse. And so the tragic story unfolds itself, day after day, the wires bringing in their tale of dead and wounded.—Halifax Chronicle.

Waiting For Proof

An Egyptian mummified cat, stated to be 2,000 years old, has arrived at Croydon by air from Holland, for delivery to an antique dealer in London. The customs, however, cannot release it out of their charge until they have received a declaration from the vendor that it is not less than 100 years old. The declaration has to be signed in the presence of the British consular general in Holland.

And if you don't think Professor Picard clear out of the dictionary try to find the word stratosphere.

British Polar Year Party Tells Of Work Accomplished At Their Bear Lake Station

Interesting Old Records

British House Of Commons Has Wonderful Reference Library

The library of the British House of Commons today is well stocked with history, political biographical and law books—one of the best reference libraries of its kind in the world.

Yet 100 years ago, two years before the Palace of Westminster, the old House of Commons, was burnt down, a committee was appointed to look into the affairs of the library, and found it "very imperfect." Among other things, they discovered a "post-office bag of unopened letters of the year 1690. So much for constituents who wrote to their members in those days. For the rest not even a copy of the Acts was housed in the library, and valuable space was given up to books which had no bearing on political matters.

The library contains some interesting old records saved from the fire. Among them the official journals, records of debates and procedure, which until 1742 when they were printed were presented written in the recording clerk's hand. There is the record of Cromwell's famous descent on the House when he dissolved the "Rump," and another records the visit of Charles I. to arrest the five members. Both these entries are in so shaky a hand as to indicate plainly the clerk's agitation.

Advice For Piano Owners

Tone and Condition Depend On Where It Is Placed

In deciding where to put the piano both tone and condition have to be considered. A rug under a piano tends to deaden the sound. If possible, it should stand on bare boards, or, if the rug goes all over the room, wooden insulators set under the castors. Tone is also lost when an upright piano stands back against a wall. Set it at an angle, or pull it out two or three inches from the wall.

Special precaution must be taken against damp. A piano should be kept in a warm, well-aired room. Placed close to a window, or against an outside wall, a piano is exposed to damp air. Strings become rusted and the glue of hammer felts is loosened.

A little charcoal laid at the bottom of the case inside the lower front panel is a good protection from damp. Moths in the hammer felt can be guarded against by hanging little bags of camphor or cedar chips inside.

Ivory keys turn yellow if the key-board remains shut up, so leave them exposed to the air as much as possible. They may be whitened by rubbing them with a soft rag dipped in lemon juice. Soiled keys are easily cleaned with methylated spirit.

Don't put up with a squeaky pedal; a touch of blacklead will cure this.

Easily Recognized

The ropes in the English navy, from the greatest to the smallest, are so twisted that a scarlet thread runs through them from end to end, which cannot be extricated without undoing the whole; and by which, the smallest pieces may be recognized as belonging to the Crown.

Aviation in all its forms is popular in Germany this year.

Dry Canadian Snow

Snows Of Winter Are Dry, Soft, and Fluffy

Some sections of the world profess to have such a climate that their rains are dry rains, and for the most part a statement of this nature is hard to believe. Canadian snow, however, will be a treat to those only familiar with flakes that fall and immediately turn to a dull grey and sodden mass. In the greater part of the Dominion the snows of winter are dry, soft, and fluffy. They cling to one's garments, and even after a day of play in the open, ailing, or sliding on Nature's white cushion, a slight shake or brushing removes all trace. So dry is the snow that at times it is impossible to mould the crystals into a snowball.

Bird Sanctuary

Saskatchewan Farmer Has Fine Flock Of Hungarian Partridge

Fillmore, Sask., boasts a "Jack Miner" in the person of John Boll, who is building up a bird sanctuary on the farm of his brother, Frank Boll, one mile west of Fillmore.

Last fall, a little over a year ago, Mr. Boll began feeding a couple of Hungarian partridge. The couple has now grown to a flock of 22 and this fall 75 more joined the group. A very fine grove of maples and evergreens in the yard, close to the buildings, provides shelter and protection for the birds and in this security and with the kindly care of their guardian the birds are becoming very tame.

It's funny, but a woman who can spot a blonde hair on your coat at ten paces can't see a pair of garage doors at all.

The human brain is truly a marvelous thing. It starts working the minute you wake up and never stops until you get to the office.

WORLD HAPPENINGS BRIEFLY TOLD

Political considerations will be cast aside in the selection of men for the tariff board, Premier R. B. Bennett promised the House of Commons.

Friend of Louis Riel and the man who brought the rebel's body to Winnipeg for burial after his execution in Regina, in 1885, Arthur Suave, is dead in his 73rd year.

A total of 187 Japanese and one Chinese were admitted to Canada from June, 1931, to November 1, 1932, according to a return tabled in the House of Commons.

Abbott Lawrence Lowell, 76, one of the world's noted educationists and for the past 23 years president of Harvard University, has resigned. No reason was given.

Liquor revenue for British Columbia under the government liquor board for this year is off 40 per cent, according to a preliminary report compiled by government auditors for the information of the cabinet.

First shipment of its kind, some 12,000 tons of Russian fuel oil arrived at Montreal recently. Since September three shiploads of crude oil from Soviet Russia reached the Montreal port.

A group of Harvard undergraduates have begun organization of a permanent "Harvard League of Nations," in which students from all countries represented in the university would have membership.

Nine sleek Alaskan sled dogs headed out of Copper Centre, Alaska, on November 20, en route with their driver, Clyde Williams, veteran of 31 years of prospecting, trapping and mushing in the northland, on an overland trip to Chicago.

Canada gave whole-hearted support to any and every constructive proposal for the limitation and reduction of armaments which was laid before the Geneva disarmament conference.

Sir George Perley, who headed the Canadian delegation, informed the House of Commons.

Men in New Business

Contend There Is Room For Them As Manicurists

Entering a field hitherto belonging exclusively to women, six Edmonton young men have finished training as manicurists. And they're dead-serious about it.

The head of a prominent school of beauty culture in the east gave them their training. Economic conditions forced them into this experiment, but they don't intend to compete with women manicurists. There's room in the field for both, they say.

Had No Representative

Women Cannot Be Blamed If Imperial Conference Made Mistakes

If the recent Imperial Economic Conference at Ottawa made mistakes the women of the empire cannot be blamed. So contends Canada's only woman senator, Hon. Cairine Wilson.

Addressing the annual banquet of the Ontario Liberal Association, Senator Wilson called attention to the fact that not one nation taking part in the conference had a woman representative or a woman adviser.

W. N. U., 1970

Complete Moth Collection

Manitoba Men Proud Possessors Of Every Known Specimen

Manitoba has discovered herself the home of two of the greatest butterfly and moth collections in the world. They are owned by J. Hannibal, Winnipeg, and Jack May, of Riding National Park.

Comprising insects of varying size and design the two collections are representative of the entire world's entomological phenomena.

The "Silix" as it is called, is the Cattagranma from Columbia. South America, with two perfect numerals on its back, reading 89. Another has a death's head on its back, and still another a pair of owl's eyes. The specimens vary from the Great Hercules moth with a wing spread of eleven inches to others that are so tiny they can be hardly seen with the naked eye.

Wheat For Subscriptions

Yorkton Enterprise Boosts Circulation In Farming Districts

Eight carloads of wheat, more than 8,000 bushels, at a pegged price of 50 cents per bushel, were taken in by the "Yorkton Enterprise" during a novel circulation campaign. The wheat is represented by storage tickets on practically every elevator within a radius of fifty miles of Yorkton. Farmer subscribers throughout the territory took advantage of the opportunity afforded of renewing their subscriptions with 50-cent wheat and close to one thousand new subscriptions were received.

By Ruth Rogers

A DAWLING NEW MODEL IDENTIFIED BY ITS RAGLAN SHOULDERS WITH PUFFED SLEEVES

The raglan shoulders in this charming daytime dress have much to do with creating sleeve interest.

It is gay red rough crepe silk. Contrast is provided by the black, rough crepe collar. Buttons give decorative touch. They are made of the black crepe with the red crepe used for the rims.

It's as simple as eating apple pie to make it.

It's a dress that you can wear for street or afternoon parties.

Style No. 938 is designed for sizes 14, 16, 18, 20 years, 36 and 38 inches bust.

Size 16 requires 3 1/2 yards 39-inch with 1/4 yard 39-inch contrasting.

Crinkly crepe satin, wool crepe, velvet and wool and crepe silk novelties are also appropriate.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Recipes For This Week

(By Betty Barclay)

NUD BROWN PUFF
1 cup crumbled graham crackers
1/2 cup sugar
1/2 teaspoon salt
3 cups scalded milk
4 egg yolks, beaten
1/2 cup nut meats chopped
1/2 teaspoon almond flavoring
1/2 teaspoon vanilla
4 egg whites

Mix crumbled crackers, sugar, salt and cover with scalded milk. Stir into beaten egg yolks. Add nut meats and flavoring and fold in stiffly beaten egg whites. Pour into buttered baking dish. Bake in a moderate oven (350 degrees Fahrenheit) 35-40 minutes. Six portions.

ORANGE CANDIED SWEET POTATOES

(Serves 6)

1 cup orange juice
1/2 teaspoon grated orange rind
1 cup water
1/2 cup sugar
3 tablespoons light corn syrup
1/2 teaspoon salt
1/2 cup butter
6 to 8 sweet potatoes or yams

Combine first 7 ingredients and pour over peeled uncooked sweet potatoes arranged in casserole or baking dish. Bake covered in a moderate oven (375 degrees to 400 degrees Fahrenheit) until tender, 30 to 40 minutes. Bake occasionally. Remove lid last 10 minutes to brown or put under broiler.

Variation: Just before removing from oven, add a layer of marshmallows and brown.

Russia estimates that its present population is 127,000,000.

England has twice as many women as men over 86 years old.

Biography Of Louis Riel

Chas. Sauve Brings To Light Some Interesting Facts Concerning Rebel Leader

Louis Riel's grandfather's name was Rielson and Riel himself came from Limerick, instead of Quebec, as is stated among the interesting records in a biography of "Riel, the Martyr," written by Charles Sauve, who died in Winnipeg recently.

Mr. Sauve was forty years in finishing the book, completing it a few days before his death.

He began to make notes at the time of Riel's death. Sauve was one of those chosen to go west to Regina when Riel was executed, and guard the box-car that brought the casket to Winnipeg during the black days of November, 1885.

Mrs. S. Smith, daughter of Sauve, in telling of the manuscript, said it disclosed Riel's body was not in the coffin buried in St. Boniface, but was buried secretly elsewhere.

In the book other famous characters of the west of those days are described, including Jean Baptiste Lagimodiere, who went on snow-shoes from Red River to Montreal.

One of M. Sauve's exploits as a young man was to duplicate this feat of his ancestor, walking to Montreal and back, carrying nothing but his gun. He was gone a year.

After fourteen years of flying, Douglas H. Davis, air mail pilot, of Griffin, Georgia, has completed 1,000 miles in the air.

A first edition of short stories by Kipling was bought for four cents in an Isleworth, England, second-hand store recently.

"False alarms are the curse of the fireman's life," says a retired captain. Nobody likes to be told to go to blazes for nothing.

SUNDAY SCHOOL LESSON DECEMBER 4

LIVING WITH PEOPLE OF OTHER RACES

Golden Text: "Of a truth I perceive that God is no respecter of persons."—Acts 10:34.

Lesson: 1 Kings 8:41-43; Luke 10:28-37; John 4:13-10; Acts 10:19-28, 35; 17:23-28.

Devotional Reading: Luke 10:30-37.

Explanations and Comments

Jesus Was No Respector Of Persons. John 4:13-10.—We have in this incident the example of Jesus in dealing with a representative of another race. This was our text for the Fourth Lesson of the First Quarter, and Explanations and Comments there have been recalled.

The world menace of interracial friction and antagonism constitutes the supreme concrete challenge to the Christian belief that all men are the children of God.—Basil Matthews.

The Lesson Peter Learned About Other Nations, Acts 10:19-28.—While praying on a house top in Joppa, Peter had a vision of a receptacle resembling a great sheet let down from heaven by its four corners, and in it all manner of four-footed beasts and creeping things, and birds, and he heard a voice bidding him kill and eat. Horrified at the thought, Peter exclaimed, "Not so, Lord, for I have never eaten anything that is common or unclean." The Levitical law prescribed what animals could be eaten and how they should be slaughtered, and all else was held to be unclean.

"What God hath cleansed, make not thou common," were the words the voice uttered to the astonished Peter. What God had made and given good in His sight. Apart from the symbolic meaning of the vision, it was important for Peter and all the leaders in recognizing the fact that the distinction of meats held by the Jews in the past must now be given up, in that the Jews and Gentiles were to eat together, associating on terms of equality.

Peter was pondering the meaning of the vision when messengers arrived from Cornelius, a Roman centurion at Caesarea, a devout man who was anxious to hear the word of God. He was another race, whom before this Peter would have called "unclean," but with his lesson in mind Peter had them enter and lodged them over night. The next day he accompanied them on their return to Cornelius. He took the precaution to take with him six brethren as witnesses, for he felt that he was doing a new thing. Cornelius told Peter of the vision he had had, in which he was directed to send for the latter, and said that he and his friends and kinsmen were all present "in the sight of the Lord" to hear what God had commanded Peter to tell them.

Christmas Seal Campaign

Nineteen Sanatoriums in Manitoba Doing Splendid Work

The Christmas seals—what have they to say for themselves? What do they do to help in these bad days? They pay for the field work of the Travelling Tuberculosis Clinics. These clinics seek through Manitoba for hidden tuberculosis and help to clear it up. Already in 1932, 45 clinics have been held—more than twice as many as last year, 16 places visited for the first time, and 4,640 examined, fifty per cent. increase over 1931.

These travelling clinics go into all parts of the province, into good communities, and poor, and very poor. They follow clues of disease, examine those who have been in contact with open tuberculosis, or are suspected, and keep examining them. No charge is made for any such examination. There is now a van to carry all equipment and staff, and a portable generator, so that a current for X-ray films can be provided anywhere.

More than fifteen thousand examinations have been made by these Manitoba Travelling Clinics since they began, supported by seal sales. Besides known tuberculosis people who have been seen, the new discoveries of tuberculosis totalled more than 200 in 1932, and altogether, more than one thousand.

When you bought seals last year this was the big work you helped with. When you buy NOW you help to do even more in 1933.

Should you buy seals? This year many should not or cannot. Do not be pressed to buy unless you should. We would like to think that none had bought who should not. It is quite easy to return the seals to the sanatorium at Ninette, Manitoba. If you have bought in other years and cannot this year please take a few seals without cost before returning.

But do your bit by buying if you can and what you can. The worse the year the more the need.

Different Dog Taxes

In England they pay 7s. 6d. for a license for any sort of dog, but in Germany dogs are taxed according to their weight. A doghouse costs \$1 a year. In France dogs are taxed according to their value. You can keep a mongrel for as little as a shilling, but a thoroughbred may cost thirty shillings.

Steamers Missed Rock Through Good Luck

Found Near Surface In Channel Off Vancouver Coast

Lady Luck has been standing on the bridge of every steamer that has navigated Rell's Cove. Clayquot Sound, West Coast of Vancouver Island, because in the dead centre of the channel there is a pinnacle of rock that had less than fifteen feet of water over it at low water.

This pinnacle was located by the Dominion hydrographic steamer "Lil-loet" in the course of her charting work and a lot of mariners are shaking hands with themselves at getting over that dangerous spot without trouble.

How ships missed piling up on this rock is explained by the hydrographers that none happened to be in the neighborhood at low water. "Just a matter of luck," said one of the hydrographers.

A Pocket Sheep-Shearer

Small Machine Can Run From Light-Battery Of Car

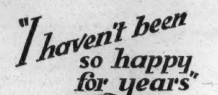

A small machine for shearing sheep weighing only five pounds, has been invented for use with the lighting battery of a motor car.

Many modern shepherds in Britain go to and fro by car, and with such a shearer—attached by a flexible wire to the dashboard—they can remove 12 pounds of fleece in five minutes.

Plenty In a Name

What's in a name? "Plenty," said Detective Thomas Hennings and a New York Central railroad engineer, who was forced to stop his train, climb from the cab and help shove an automobile from the railroad tracks where it apparently was abandoned. The automobile was parked on the tracks by a man named Leavitt.

A forestry course for army recruits has been instituted in Norway.

"I haven't been so happy for years."

"I've just thrown out all my dusty clothes"

—because I've found how to do the work better, easier and quicker.

"I use Appleford Wonder Paper now. You buy it in a neat package that tucks away handy in a table drawer. Twenty-five large sheets for a quarter. When you use it, you simply crumple a sheet into a soft wad and go over whatever needs attention."

"I've never seen anything like Wonder Paper. It really dusters, cleans and polishes at the same time. It takes up dirt like magic, and so easily. And you can use both sides."

"What I used to loathe about dusting was the bother of keeping the dusters clean. I always used rags and rags of old shirts and the like—and it seemed to me I was eternally washing them. It worried me just to throw them into a bag or cupboard. They seemed so unsanitary."

"The beauty of Wonder Paper is that you throw it away when you're through with it."

"I can promise that you'll like Wonder Paper. It gives you time for things very much more attractive than dusting."

Special Offer

WONDER PAPER is made by the makers of the famous FARA-SANI Green Wax Paper in the Green Box. Most grocery, hardware and department stores have Appleford Wonder Paper in stock. If yours hasn't, send the coupon below and we'll give you a booklet entitled "Lettovers," containing one hundred recipes, as a bonus for your trouble.

Appleford Paper Products, Ltd., Hamilton, Ontario.

Enclosed find 25¢ for which please send me one package of The Wonder Paper and your 100 recipes for "Lettovers".

PROPOSAL FOR WORLD WHEAT POOL ADVANCED

Calgary, Alberta.—Virtual establishment of a world wheat pool, on a voluntary basis by the four leading wheat exporting countries, was urged before the Alberta wheat pool annual meeting here by C. W. Peterson, publisher of the Farm and Ranch Review and leading farm expert of western Canada.

Mr. Peterson's address was given at request of delegates during discussion of general wheat production and exporting problems.

Mr. Peterson's proposals, mentioning specifically the wheat exporting countries of Canada, United States, Australia and Argentina, briefly were:

1. To organize the four chief wheat exporting countries into a pool to control, within each such country, the domestic and export sale of wheat and flour.
2. To induce importing countries to agree to a fixed, uniform price of a specified grade of wheat at Liverpool.
3. By creating a state monopoly of the wheat and flour business, or by any other feasible method, to facilitate the proper enforcement of such a price within all countries.

Elaborating his proposals after addressing the closed meeting of the pool delegates, Mr. Peterson reviewed history of agriculture for the past 300 years, leading up to present world conditions. He proposed the licensing of farmers in Canada, United States, Australia and Argentina to guarantee against over-production with a form of international control.

"Thinking people," he said, "can easily comprehend the sequence of events leading up to present conditions." The first step, he said, was universal agricultural over-expansion arising from inflated war prices. The second was culmination in unprecedented agrarian price demoralization, bringing the temporary subjugation of farmers in all exporting and most importing countries to a slum standard of living. The finale was present chaos.

Mr. Peterson's plan called for establishment of a "joint international wheat board" which would become responsible for marketing of all the wheat and flour produced in the four countries.

Each of the four countries would, by the joint international body, be allotted an acreage quota annually, based on current world requirements. Normally, he said, this would vary somewhat each year in sympathy with carryovers, increases in world population and planting intentions in other countries. Special quota allowances might have to be accorded Australia and Canada in view of their comparatively undeveloped state to provide for new settlement. The proceeds of this acreage, based on the season's yield in each country, would be accepted for export sale. No more than the quota would be taken.

Church Union

Australian Making Study Of Church Union System In Canada

Ottawa, Ont.—"I don't think there is any chance of stopping union," declared Lieut.-Col. the Rev. A. T. Holden, D.D., president-general of the General Conference of the Australian Methodist Church, and chaplain-general of the Australian military forces, who was a visitor in Ottawa. Col. Holden is making a trip across Canada for the sole purpose of studying church union as it exists in this country, so that he can put forth proposals in his own country for the union of churches.

Going To New Diocese

Vancouver, B.C.—Rt. Rev. A. H. Sovereign, bishop of the Yukon, who is relinquishing his work in the far north to take charge of the diocese of Athabasca, will leave Dawson in March, according to word received here. Bishop Sovereign will arrive in Vancouver early in April and after a short stay here, will proceed to Prince Albert to commence his new work.

Would Improve Bacon Hogs

Toronto, Ont.—Advocating a higher quality of bacon hog suitable to the demand of the Great Britain consumer, Hon. Robert Weir, Dominion Minister of Agriculture, addressed several hundred farmers and exhibitors at the Royal Winter Fair luncheon recently.

W. N. U. 1970

Many Questions On Beauharnois Project

Matter Is Again On Ottawa House Order Paper

Ottawa, Ont.—The Beauharnois power project again figures in questions placed on the order paper of the House of Commons, E. J. Garland, United Farmer member for Bow River, has a dozen queries on the order paper with a view to obtaining further information in respect to the financing of the undertaking.

Mr. Garland first asks for the tabling of copies of any arrangements which have been entered into by the government in respect to the Beauharnois project. He wishes to know the total amount of money advanced by the government to date in connection with the construction and completion of the enterprise.

"What security has the government been given for the money advanced?" he asks.

The member for Bow River asks if the government has obtained any legal opinion regarding the legal right of the Beauharnois Heat and Power Company to transmit electrical energy beyond the limits and boundaries of the province of Quebec.

"Did the minister of finance or the prime minister approve of loans estimated at \$6,000,000, made by the Royal Bank of Canada, the Bank of Montreal, and the Canadian Bank of Commerce to this enterprise?" he asks. "Are such loans permissible under the Canadian Bank Act?"

For Better Understanding

Makes Plea For Closer Union Between Britain and U.S.

London, Eng.—Speaking at a Pilgrims' Society luncheon in honour of Robert Fraser, the new United States consul-general, Lord Hailsham, Secretary for War, made a plea for closer union between Great Britain and the United States for the economic salvation of the world.

"Never has there been a time when it was more important that our two peoples should understand one another," he said. "We stood together in arms to protect civilization from violent destruction. I believe that today we, the two great civilizations of the world, must stand together to protect the world from economic disaster. I believe that the hope of civilization lies in fuller understanding between Great Britain and the United States."

Attack Duff Report

Labor Makes Attack On Its Recommendations

Ottawa, Ont.—Thousands of railwaymen throughout Canada will be thrown into the ranks of the unemployed if the Duff commission's report is adopted, the House of Commons was told when Labor made its initial attack on its recommendations. Humphrey Mitchell, Labor, Hamilton East, estimated 20,000 railwaymen would lose jobs. Hon. Peter Heenan, who returned to overalls and a locomotive cab when he left the portfolio of Labor in the King cabinet, placed the number at "many thousands."

French railway lines would be scrapped, noted the former minister. Services would be dropped and curtailed. The Canadian National and Canadian Pacific Railways would be drawn into closer co-operation. Competition would disappear.

Alberta Deficit

Decreased Revenues Shown In Provincial Treasurer's Report

Edmonton, Alberta.—Deficit of \$5,153,050 in Alberta provincial finances for the fiscal year ended March 31, 1932, is shown in public accounts released by Hon. R. O. Reid, provincial treasurer. This compares with a deficit of \$2,306,581 for the previous fiscal year, 1930-31.

Revenue for the year which had been estimated at \$18,644,437 actually yielded \$13,492,430, a shrinkage of nearly five millions, expenditures were estimated at \$18,528,796, but were cut to \$13,645,481.

Sees Better Times

Toronto, Ont.—President Frank A. Rolph told the annual meeting of the shareholders of the Imperial Bank of Canada here today there is a greater feeling of optimism throughout the country than there has been for two years, that opportunities are offered for developing business due to the imperial economic conference, and that further stabilization may be expected from the coming world economic conference.

Oil From Oklahoma

Trainload Of Crude Oil Leaves Seminole For Regina

Seminole, Okla.—A trainload of 40 cars of crude oil will leave here for the Imperial Oil Company, Regina, Sask.

The train will provide 120 working days for railway employees in Canada and the United States. The railroad men call it the "King George Special." It is the first trainload of Seminole crude oil to be shipped to Canada in months. There used to be three a week.

MORE DIVERSITY OF PRODUCTION ON THE FARM

Toronto, Ont.—Radical changes are required in western Canadian agricultural practices before the prairie provinces' economic picture is again bright, in the opinion of a prominent Toronto banking official quoted by the "Mail and Empire."

Just returned from a month's intimate study of conditions and prospects in the west, the banker advocated turning the bulk of Manitoba's wheat lands into grass for cattle. That, he suggested, would permit Saskatchewan areas suitable for wheat alone to retain this as a major crop without congesting the market.

Alberta, he stated, already was well on the way toward a more balanced production. However, greater interprovincial co-operation was required before the problem finally could be solved.

There must, in the banker's opinion, be drastic curtailment of wheat acreage in western Canada, and he suggested the best method of attaining it would be through interprovincial co-operative measures tending toward a planned and co-ordinated diversity of production, allocating to each area the new crops and types of livestock it was best fitted to produce.

Western Canada could not get along with general cornfrost throughout all its sections so long as wheat prices at Fort William were less than 85 cents a bushel. Readjustments already made had placed the average farmer in the position of being as well off with wheat at 60 to 65 cents as he was three years ago when it was selling at \$2.

Some communities and individuals had so organized their production they were doing well with 50-cent wheat, the banker stated. Others in such areas as southeastern Saskatchewan had not yet exhausted their cash surpluses from former years. Thus, there was by no means a uniform condition throughout the west. Bright spots were sufficient in number and variety to mitigate the gloom cast by others.

ITALY PASSES TENTH MILESTONE UNDER FASCISM

Since that October day, ten years ago, when the black-shirted legion, led by an almost unknown agitator, Benito Mussolini, marched into the Eternal City and started Italy on its comeback to greatness, many changes have taken place in the land of the Caesars and Popes. The most remarkable of these changes, to the looker-on, has been the climb to power of Mussolini. His word is law in every corner of the country. He is hated by many, feared by many, adored by many—but obeyed by all. Fascists claim that It Duce has built up the economic structure of Italy to a position it has not enjoyed for decades.

NEW AMBASSADOR

Herr Von Hoesch, new German Ambassador to Great Britain, is shown above as he arrived in the British Capital.

New Bacon Policy Will Benefit Canada

British Markets More Open Than Ever For Product

Toronto, Ont.—"Canada will benefit automatically in the new policy by reason of the 280,000,000 pounds of bacon per year," declared J. S. McLean, of Canada Packers, Limited, in commenting on Great Britain's policy with regard to bacon restrictions which are now in effect.

"Her market will now be more open than ever to receive this Canadian bacon, which will take care of about 50,000 hogs a week," he said. Great Britain has started cutting down on her imports of bacon from foreign countries. She is doing this essentially as a preliminary to building up her production.

May Demand Provincial Election In Ontario

Progressive Leader Will Introduce Amendment When House Opens

Toronto, Ont.—A demand for a provincial election next summer will be made immediately after the opening of the Ontario legislature in February by H. C. Nixon, Progressive Leader, who was in Toronto.

He declared he would introduce an amendment to the moving and seconding of the adoption of the Speech from the Throne demanding the business of the House be concluded with reasonable speed and an election cited for June next.

Relief On Mortgage Payments Is Sought

One Per Cent. Interest Cut Asked By Prairie Provinces

Ottawa, Ont.—Efforts to free prairie farmers for one year from mortgage interest and to persuade mortgage companies to reduce interest rates by one per cent., were put forward last week by western provincial treasurers in an interview with officials of these companies.

The interview, it is understood, took place at Toronto, and the reply given the treasurers is not known here. It is understood, however, that the companies pointed out that few if any foreclosures are being sought for arrears of interest, and that the companies are dealing generously with farmer debtors on the prairies.

New Stamp Issue

Bears Profile Of King Engraved In Medallion Style

Ottawa, Ont.—A new stamp issue, in denominations of one, two, three, four and eight cents was placed on sale by the post office department on December 1.

The new issue bears the profile of the King, engraved in medallion style, and is similar in design to the 3-cent stamp issued to commemorate the Imperial Economic Conference.

At the same time a new 13-cent stamp will be issued replacing the current 12-cent stamp that bears the profile of the Quebec capital. The design of the new stamp will be the same as that of the 12-cent issue, but its colour will be violet.

No Jobless In Jerusalem

Not One Man Unemployed Statement Of Jewish Leaders

New York.—Three Jewish leaders from Palestine, arrived on the "Ben-gurion" on their way to a convention of the American Mishnachi organization in Buffalo, boasted that their city is the one place in the world that has not one unemployed man.

One of them, Aram Bis-Nun, said the Jewish population in Jerusalem has grown from 50,000 in 1917 to 220,000 today.

U. S. IS AGAINST MOVE FOR DEBT CANCELLATION

Washington.—Climaxing a rapidly moving picture of war debt discussion, President Herbert Hoover launched—with the knowledge of President-elect Franklin D. Roosevelt—a request that foreign debtors meet the December 15 payments on their war debts to the United States.

Simultaneously and in the face of congressional opposition, he proposed legislative creation of an agency to review international financial pledges in connection with world economic and disarmament problems.

In view of determined objections made on Capitol Hill, especially by Democratic powers in the House, there seems little chance for such a United States commission.

Only a few minutes before Mr. Roosevelt left Washington and shortly after an extraordinary conference of congressional leaders at the White House, Mr. Hoover issued a lengthy formal statement declaring flatly against debt cancellation but suggesting "other forms of tangible compensation than cash."

Immediately there followed a chorus of mixed approbation and opposition. One senator and representative after another declared against a commission to review the debts. The same men, however, expressed approval of Mr. Hoover's stand against further moratorium or cancellation.

Some congressional leaders told President Hoover at the White House conference that he already had power to negotiate or set up a commission such as he proposed to negotiate with Great Britain, France and other European powers. The same view was echoed later by other prominent members of congress who did not attend the meeting, but in administration quarters it was held the executive had no such power.

Speaker John Nance Garner, the vice-president-elect, who led the Democratic contingent into the cabinet room conference with Mr. Roosevelt, reiterated in public a belief expressed by several at both meetings.

"Let them default," he exclaimed in answer to questions. "Who said they would default? They won't."

MASS KILLING OF CHINESE BY JAP SOLDIERS

Shanghai, China.—A Chinese foreign office communique published here charged that 2,700 Chinese peasants were massacred recently in northern Manchuria by Japanese troops.

The mass killing was done by machine guns, the communique said.

Inhabitants of the villages of Ping-Ting-San, China-Chinpa and Litsa-shu, 10 to 16 miles northeast of Fushun, were assembled in a ditch west of Ping-Ting San while Japanese soldiers searched the villages for Chinese volunteers, the announcement said. It was explained that the villages were suspected of co-operating with and harboring the volunteers.

According to the Chinese foreign office, the Japanese promised a reward if the villagers were found to be innocent, and then placed more than 10 machine guns 70 yards from the assembly, ordering all the captives to kneel with their backs to the guns.

Some of the villagers realized the fate in store for them, the communique continued, and commenced to run, whereupon the machine guns opened fire on the stampeding mass of screaming men, women and children.

"Infants, children and others not killed by bullets were bayoneted," the statement said.

The Japanese, the foreign office declared, piled up the corpses, covered them with oil-soaked fuel and burned them.

Subsequently, according to the communique, the farms of the villagers were allotted to Japanese nationals.

Talked Over Light Beam

Scientists Make Longest Narrow-Casting Experiment On Record

Schenectady, N.Y.—A group of scientists at Schenectady talked with another group at Lake Desolation, 24 miles away, over a light beam projected across the lower Adirondack mountains.

It was the longest narrow-casting experiment on record. During a part of the experiment John Belsamy Taylor, who developed the method of transmitting sound over light waves, was interviewed by Heywood Brown, newspaper columnist, who was at Schenectady, while Taylor was at Lake Desolation.

A searchlight mounted on a building at the General Electric Company's plant projected its beam upon a 30-inch mirror which was part of the receiving apparatus at Lake Desolation.

For National Defence

Conference Of Defence Association Has Been Established

Ottawa, Ont.—Organized for the purpose of considering problems of national defence, co-ordinating the activities of the present service associations in matters of common interest, and generally promoting the welfare of the defence forces of Canada, the conference of defence associations has just been established. The conference will meet annually in Ottawa. The chairman is Col. J. A. Cope, D.S.O., M.C., of Lethbridge, with Lieut.-Col. A. W. Beament, V.D., Ottawa, secretary.

Bill Given Third Reading

Ottawa, Ont.—Bill number six, an act to amend the customs act, has been given third reading and sent to the Senate, in the House of Commons. The amendment removed from the operation of section 43 the power of the minister to fix values for customs purposes on goods entitled to entry under British preference or any lower tariff.

New Sheep For West

Toronto, Ont.—Production of a new breed of sheep particularly adapted to conditions on western ranges which would provide the quality of wool desired in Canada as well as mutton and lamb for food was forecast at the fifth annual meeting of the associate committee on wool of the National Research Council.

Reducing Liquor Prices

Victoria, B.C.—Reductions in liquor prices on all save continental European brands, ranging from 10 cents to 60 cents a bottle, went into effect in British Columbia December 1. Hon. R. H. Pooley, attorney-general, announced. Government approval has been given the new price list prepared by the liquor control board.

English Heirlooms

Royal Commission On Historical Monuments Busy Taking Inventory

If there are any who imagine that the auction rooms have made a clearance of the historic treasures of England they may reassure themselves. Prodigious as the sales have been in recent years, they have but "scratched the surface" of the United Kingdom's savings from the centuries. Ample evidence of this is furnished in the inventory, so far as it has proceeded, of the royal commission on historical monuments. Appointed by King Edward 24 years ago the commission has to date made a survey only of London and of five counties. The war and the lean times following are in part responsible for the seeming slowness of progress, but even more so has been the laborious care taken by the commission in every detail of its work.

Roman camps and earthworks, churches and castles, cottages and manor houses, moorlands and market halls—nothing small or great in building or furnishings which was in existence before the year 1714 has escaped minute inspection. Charged to discover "those things which seem most worthy of preservation," the commissioners of Edward VII. and George V. in thoroughness and energy put to the blush the commissioners of Henry VIII. who made a more sinister visitation of England's abbeys and monasteries.

Fifteen substantial volumes in quarto record the results achieved so far. Even the smallest of the hundreds of photographs is a work of art. How stupendous was the amount of material which awaited examination may be gathered from the fact that it was necessary to devote an entire volume to Westminster Abbey alone. Roman remains in London took another volume, a third was devoted to the city proper, a fourth and fifth to east and west London, Essex, Huntingdonshire, Hertfordshire and Herefordshire are considered in other volumes. Some of these are already out of print.

There has just been published the report upon east Herefordshire. One of the most smiling of the English shires, its relics of the past centuries now under notice range from a beacon camp on "Malvers's lonely height"—constructed when the Crucifixion was an event of the far future—to the market house at Ross, one of the most interesting specimens of a public building of three centuries back. Even more gracious is the half-timbered market hall of Ledbury.

The churches of east Herefordshire, of course, have yielded an abundance of material. Consider alone their smaller possessions, and one is tempted to speculate—admittedly an ungracious speculation—on what they would "fetch" if they found their way to Christie's. For in which infants were being dipped ("discreetly and warily," let us hope), when Becket was slain in Canterbury Cathedral; communion cups and flagons in use when the 39 articles were drafted; pulpits occupied by preachers who had talked with Archbishop Laud; bells which rang the alarm of the Spanish Armada; richly carved stairways trodden by children of men who fought at Agincourt; oaken doors of manor houses which opened to gay cavaliers and to Cromwell's Ironsides. That England still holds for herself a vast treasure of the past is amply demonstrated when even this one volume is opened.

The chairman of the royal commission is the Earl of Crawford and Balcarres.

Complete Soil Survey

Classifying and Mapping Soils In Saskatchewan

After 11 years of work, involving over 120,000 miles of travel, Saskatchewan's soil survey is completed, according to announcement made by officials of the soils department of the University of Saskatchewan, in charge of the work.

In 1920 members of a better farming conference at Swift Current urged a survey of the soils of the province to classify and map the soils so as to encourage and assist the development of all types by systems of farming to which they were best adapted.

A soil map of the western half of the province has been completed showing the many soil types, and the work of the present season brings to near completion the reconnaissance soil survey of the more settled part of Saskatchewan.

On the world's longest air-line run to Japan, a distance of 9,000 miles, the fare is \$188.70.

W. N. U. 1970

Game Conservation

Alberta Fish and Game Association Asks For Grant

A \$5,000 grant to be used chiefly in conservation of wild life was sought from the Alberta Government by the Alberta Fish and Game Association in annual convention at Lethbridge. The association suggested the grant be made to the association from revenue derived through sale of hunters' and fishermen's licenses.

A resolution adopted by the delegates asked the Alberta and Dominion governments through their parks departments to undertake destruction of coyotes, wolves and other animals which are killing deer in large numbers within the park boundaries. Bird sanctuaries at Many Island Lake, Chin Lake, Shanks Lake and Kirkpatrick Lake were proposed.

Only one suggestion was made in connection with hunting of game birds. This was a recommendation of an open season of one week be provided on ruffed grouse, north of the North Saskatchewan River, with a limit of five birds a day and 15 for the season.

Norman Fraser, Edmonton, was elected president for the next two years and the next annual convention will be held in August, 1933, at Edmonton.

Trade With China

Canadian Representatives Have Taken Up Duties In Orient

Special representatives of the Department of Trade and Commerce have taken up location in China, Premier R. B. Bennett made this statement in the House of Commons. The Prime Minister had been asked if he would consider the advisability of appointing a special representative to China so as to facilitate trade relations.

Thomas Reid, Liberal member for New Westminster, put the question. He said that "in view of the fact that Chinese officials have refused to meet Hon. Herbert Marler, Canadian Minister to Japan, the appointment of a representative was increasingly important."

Mr. Bennett replied that provision had been made within the past 12 months for special representatives of the Department of Trade and Commerce to take up location in China. They had undertaken their duties there.

Boosting World's Grain Show

Preparing For Biggest Grain Show In History Of The Continent

The buildings have been erected on the Regina Exhibition grounds, and preparations are now being made for the biggest grain show in the history of the continent. The whole world is interested and every grain country on the face of the globe will have exhibits in Regina. No better place for the show could be chosen than the Queen City of the West, situated in Southern Saskatchewan in the centre of what in normal times is the greatest wheat growing country in the world. It is also almost the geographical centre of the Prairie Provinces, or that section of them which is devoted to grain growing. Since the completion of the C.P.R. hotel and other hostilities, there is sufficient accommodation for the thousands who are expected to attend the show. Also, there is no more hospitable city in a country noted for its hospitality than the Capital of Saskatchewan—London, Ont., Free Press.

Government May Remove Some Dumping Duties

Certain Imports From Great Britain Are Under Consideration

The Canadian Government is giving "serious consideration" to removal of exchange dumping duties from certain imports from Great Britain. This was announced in the House of Commons by Hon. H. H. Stevens, Minister of Trade and Commerce.

Canada promised "sympathetic consideration" under the Anglo-Canadian treaty to removal of currency dumping duties from British imports.

Even Before Adam

A modest Scotchman, in speaking of his family, said: "The Douglas family is a verra, verra auld Scotch family. The line runs awa' back into antiquity. We dinna ken hoo far back it runs, but it's a lang, lang way back, and the history of the Douglas family is recorded in five volumes. In about the middle of the third volume, in a marginal note, we read, 'About this time the world was created.'"

Berlin has introduced travelling grocery stores which stop at specified places for housewives to make their purchases.

BRITISH LAWN TENNIS TEAM LEAVES FOR AFRICA

Here are the members of the British Lawn Tennis team leaving London, England, for South Africa. They are left to right: Fred J. Perry, G. F. Hughes, Miss Betty Nuthall, Mrs. Fearnley Whittingstall (formerly Ellen Bennett), Miss Mary Heeley and H. G. N. Lee.

Clouds Are Depressing

Most People Feel Dependent When Sun Does Not Shine

Everyone has the blues this morning. The sky caused it, for when we first awoke that ceiling was overcast with a dim greyish mist that filtered the sun's light weakly and slowly. The newboy on the corner refused his customary greeting as I came to the office. The elevator boy in our building lacked his usual smile. The salesmen on their daily rounds were listless in their efforts, and I myself was not too bright and cheerful.

And then, about noontime, there came a rift in the mullen clouds overhead, and suddenly the sun came through the gloom and flooded the streets below. And with its coming, our little world sprang into sudden activity. The figures in the street seemed to move more energetically; the bustle of city traffic began to make itself heard; and here and there I caught the sound of laughter. When I went to lunch the elevator boy grinned at me. The newboy on the corner called a delayed greeting as I passed, and the world came back to life again.

I thought later—how little it takes to sink us mortals into the depths of despondency. The sun refuses to come out in the morning; a few mists cloze; a statification frightens brokers—and phit! we are lost in despair! But, sooner or later, the sun is sure to break through the clouds of doubt and worry. And we are all going to wonder, then, how it was that we allowed ourselves to become so disconsolate and morbid. Cheer up! In a very short while it will seem very funny that for a short time the sun forgot to smile.—Nelson S. Bond.

Technical Agriculturists

Canadian Society To Meet In Regina In July

The directors of the Canadian Society of Technical Agriculturists, meeting in Toronto, has accepted the invitation of the south Saskatchewan branch of the society to hold the annual convention at Regina during the first week of the World Grain Exhibition and Conference, July 24-31. An extensive programme of technical papers on scientific subjects pertaining to production of grain of all kinds is being planned.

Hair will stretch one-fourth of its length and retract nearly to its original length.

Second Hand Airplanes

Brisk Demand Reported In England For These Machines

Though it is certainly a sign that aviation is becoming part of the humdrum life of the country, flying enthusiasts may not be quite elated to know that second-hand airplanes are now for the first time coming on the market. The majority of these machines are light two-seater type and probably cost when new anything up to \$800 each. They are now offered second-hand, but apparently in perfectly good trim, for anything between \$300 and \$400. Most of these machines are being put on the second-hand market by owners who have either found that the running and maintenance costs were greater than they anticipated, or whose first enthusiasm for aviation as a private hobby has waned somewhat after a brief trial. A few cases there may be of course, where a bigger machine is desired. I hear there is a brisk demand for these second-hand machines.—London Cor. Ottawa Journal.

Progress In Mixed Farming

Dairy Products and Cattle Help To Balance Budget

The great lesson of the crisis is the utter condemnation of one-crop cultivation. If the objection is made that beasts, poultry and dairy products are not fetching a better price than wheat, they do at least contribute in great measure to balance the farm budget by reducing the expense account. Our farming population must learn to be self-sufficing. The immense progress achieved in this direction will be very profitable and may avert other crises of the kind through which we are now passing.—La Liberté, Winnipeg.

Quality Is Assured

One of the important safeguards of value for the farmer is the tag which appears on each bag of fertilizer sold in Canada showing the name and address of the manufacturer, the brand name, the registration number, and the guaranteed analysis. The administration of the Fertilizer Act by the Dominion Seed Branch provides assurance to the farmer that he is getting real value in fertilizer.

Alaska's great piedmont glacier, the Malaspina, consists of ice over a thousand feet thick.

India, isn't the only country with its unchangeables. Just try to borrow a five-spot from a friend these days.

FANCIFUL FABLES

Hard Job For Judges

Testing Legality Of Will Made 100 Years Ago

Judges of the Ohio Supreme Court will determine the legality of the 100-year-old will of Daniel Miles, whose eccentric life forms the strangest chapter in the annals of the Cuyahoga County probate court.

Should the terms of the will be upheld, ownership of one of Cleveland's leading hotel sites and an industrial sector there would be transferred. Total value of the property involved amounts to several million dollars.

Simultaneously, the income from these valuable properties would be given to a church and to schools.

Miles, a member of a wealthy Cleveland pioneer family, died in 1827 at the age of 36, a victim of "coughing sickness."

His will provided that the income from his 40 acres of land in Newburg township, now the present sites of the hotel and industrial centre, be given to three trustees and used in educating male members of the Miles family for 100 years.

At the end of 100 years, the will stipulated, the income from the estate was to be divided equally between Newburg township and a Christian church located in the district. The instructions of the will were faithfully adhered to by the trustees for 11 years following the death of Miles. In 1833, two brothers of Miles filed a suit to disclaim the trustees.

While complete court records are lacking, it has been established that Miles' brothers and sisters were given title to the estate in 1841.

Five years later, the courts divided the entire estate among the various heirs, with in turn took advantage of a rising real estate boom and disposed of their property.

Nevertheless, the will of the pious Daniel Miles still remains on file, and the Supreme Court has been petitioned to rule on the provision that 100 years from his death the income from his estate be given to religion and education.

Winter Pastimes

Iceless Days Are Real Holidays In Canada

There is a delightful combination of atmospheric conditions and topographical features in Canada which makes life in the open a pleasant experience. Aside from the real enjoyment of participating in the different winter pastimes, the effect toward improving one's health is truly remarkable. The clear, crisp, dry air, and brilliant sunshine of a typical winter's day acts as a tonic for tired brain and body, and it is at this particular season of the year that business men, both old and young, need most a period of relaxation to restore the energy expended since last summer's holiday, and to build up a reserve to carry on till next season's vacation days arrive.

Discipline For Prisoners

In dealing with prisoners several factors have to be borne in mind: Society at large has to be protected. The guilty must be punished. And, so far as possible, an effort must be made at reformation. While discipline must be strict, the punishment should not be of such a nature that the prisoner will be turned out a more hardened criminal than when he entered the penitentiary.

The Yangtze Kiang is the longest river on earth and 15,000,000 people live on it.

Experience may be defined as something you get when you are looking for something else.—Ottawa Journal.

Mental Patients

Apparent Decrease Due To Greater Per Centage Of Discharges

Increase in patients in Canadian mental institutions during 1931 was less than the increase during the previous year, according to figures issued by the Canadian national committee for mental hygiene. Total number of patients on the books of all Canadian institutions on December 31, 1931, was 32,059, of whom 26,097 were classed as insane and 5,962 as mentally deficient. Total number on the books on January 1, 1931, was 30,448, of whom 24,948 were insane and 5,500 mentally deficient. The increase during the year was 1,611 which compares with an increase of 1,704 during 1930.

"This apparent decrease in the number of victims of mental disorders, was not due, however, to fewer cases arriving at the hospitals, but rather to a greater percentage of discharges," the committee reports. "As a matter of fact; there were more admissions in 1931 than in 1930. There were 10,089 persons admitted to mental institutions in 1931, while in 1930 the number was only 8,869. Discharges numbered 6,488 in 1931, as against 5,222 in 1930. For every 100 patients admitted in 1931, 59.1 were discharged, and for every 100 patients discharged, 26.5 were discharged as recovered."

"The chronic condition of overcrowding, which is a constant feature of mental institutions, is of course, aggravated more greatly by the fact 1,611 additional persons have been forced into them, while the total number of new beds provided is probably less than 300. Serious consequences are bound to follow unless governments take immediate steps to supply accommodation equal at least to the annual increase in institution population."

Expedition To Jericho

Scientists To Explore Ruins Of Royal Palace

Professor John Garstang and Sir Charles Marston are to continue their excavation of Jericho this winter to ascertain further facts about stories related in the Bible. Professor Garstang will depart for Palestine this month. Sir Charles may accompany him, or go later. They have led four expeditions to Jericho in the last four years.

"The royal palace was the most important building on the whole site," says Sir Charles. This will be their objective this time.

"Its massive walls rise 60 feet above the surrounding ruins. We have already explored some of its store-rooms and have found bags of grain well preserved."

"It is significant that the whole palace was destroyed by fire when it was still in occupation. The time was that of Joshua and our discoveries agree with the Bible story. The forthcoming expedition is going to work particularly in the hope of finding some cuneiform tablets which may be stored away in the cellars."

"The most interesting result of the excavations of Jericho have shown that when the city was captured and burned, it was not plundered. And this is exactly as described in the Book of Joshua."

Few people can realize the difficulty of the spade work at Jericho. The heat is terrific and reminds one of a mild Turkish bath.

"Owing to the splendid road built by the armies in the World War, Jericho can now be reached by car in an hour from Jerusalem. The journey starts at 2,500 feet above sea level and finishes at 1,500 feet below sea level."

The Kind She Knew

The mistress was giving the new maid fresh from the country a list of household requirements. "There you are, Alice," she said, and then suddenly remembered an item she had almost forgotten. "Oh—er—don't forget we shall want a new griller for the kitchen too."

Alice stared vacantly. "Don't you know what a griller is?" she asked. "Oh," she said, and then suddenly remembered an item she had almost forgotten. "Oh—er—don't forget we shall want a new griller for the kitchen too."

Promote Scientific Union

"The movement for the promotion of scientific co-operation within the empire is substantial and far-reaching," declared Lord Bessborough, Governor-General of Canada, addressing the Royal Canadian Institute at Toronto. Lord Bessborough's subject was, "Scientific Union Within the Empire."

The city of Omak, in Siberia, following the example of Peter the Great, imposed a tax on beards in 1929.

CHAPTER 11

At Fort Endurance, in his big three-roomed cabin overlooking the rest of the post, Alan Baker was changing uniform and making himself regimental again, after a four-day patrol to a camp of drunken Hares.

Just turned thirty, tall and lanky and powerful of body, Baker had shaken off the last vestige of an unhappy boyhood and his three harrowing years across. He was in the prime of virile and hardened manhood. Coming here to Endurance as a corporal seven years ago, with Jimmy Montgomery and Curt Spaulding as his constables, he had speedily showed his worth as a "northern man" and a detachment leader able to cope with frontier problems. To him it was like coming into his own. In his boyhood he had dreamed of hunting big game; and here, at this post just beneath the Arctic circle, these day-dreams had been realized, though in a strange way. For here he had hunted the biggest of big game—human game that had intelligence to match against his; that carried a gun in its hands, and wore a belt-gun, and must be captured alive, at risk of his own life.

During the years that he had been officer commanding here, he had built up an enviable reputation. With his gradually increasing pack of northern men he had successfully brought his big territory through Indian troubles and epidemics, and had smashed those lawless elements that came in with the oil-prospecting rushes farther south.

With a record like that and with Superintendent Williamson as his friend, Alan had expected to get his commission last fall when the post was raised to an inspectorate. No one in all the Three Rivers country doubted that Baker would be the chosen man. To them, to Alan, the blow came unexpectedly. A political appointee named Haskell, a newcomer to the Force, a worse than raw newcomer to the North, got the inspectorship and command of this coveted detachment.

In these last months, Alan had been very thoughtful about his future. Here, at thirty, he found himself in a blind alley, a non-com on meager pay, with no hope of promotion. He had turned down the opportunity of going into a big mining company that was prospecting by planes through Athabasca country. He had refused half a dozen offers that held prospect of advancement and fine money. And then the Force that he had given such loyalty to had betrayed him. Worst of all, most stinging of all, he was forced to manage this territory still, straight-

ening out the mistakes and enduring the arrogance of the man who had got the place he himself had earned.

As he brushed his sandy hair and dressed quickly, Alan's glance strayed down the slope to Mrs. Drummond's flower garden. Elizabeth Spaulding, his fiancée, the sister of his dead partner, was there.

And Inspector Haskell was there with her. That blue and gold of his uniform, through the shrubbery in the garden, he had seen many hours. Haskell had spent with Elizabeth in these last four days.

Commanding all the other buildings at Fort Endurance, Alan's cabin, which he and Curt Spaulding had built for themselves one summer, was light and airy, homelike with fireplace, bookshelves, radio, flower pots on the ledges; and comfortable with good furniture which Jimmy Montgomery had turned over to him when Jimmy's young wife died. But in spite of its comforts after barracks life, the cabin was lonely to Alan. Eighteen months rolling by had not made him forget a dead partner. Every log and every nail in the building held some memory of Curt Spaulding; and Curt's picture, his chevrons, his empty gun, were poignant reminders of that fatal patrol a year ago last January.

When he finished dressing, Alan stepped over to a deep alcove, a sort of library and study—a tiny niche for a man so tall and lanky. Above the work table hung a shelf of dog-eared books and three pictures framed in carved walrus ivory. One was of Elizabeth Spaulding taken two years ago when she came down north to this Waterways country to live with Curt, her brother. Another was of Jimmy Montgomery in jaunty "walking-out" uniform, taken before Jimmy got his raw deal from headquarters and bought out of the Mounted.

The third was of Curt Spaulding. And that picture, flanked with the chevrons and the belt-gun, hung more prominently than even the other two, as though, with that face always in front of him, Alan felt less lonely for the dead partner and could imagine Curt here in this cabin still.

"If I'd Repulse Him, He'd Take It Out on You!"

In Curt's friend he had lost the best and truest friend he had ever had or ever would have; and he knew that through all the years of his life he would be lonely for that strong hand-clasp and a voice he once had known. From a pigeonhole between two logs—a secret mailbox for himself and his hard-working men—Alan blew out a secret note from Corporal Bill Haradock. He had to smile as he read, for the note was so like Bill.

"Somebody found an awfully dead Smoky on a mud bar down river this side the Big Alouka, Alan. He probably got drowned in the break-up; but I'm going down to see who he is so he won't be drawing treaty money by proxy for the next 20 years."

Alan sat down to write out the report of his last patrol. But his thoughts strayed to Elizabeth in the garden; to Haskell, there with her. He knew that these trips he constantly was sent on, these trivial assignments that took him away for days at a time, were deliberate on Haskell's part, to get him out of the road. With anger at this gross abuse of authority he thought: "If Haskell could come within a mile of managing this post himself, he'd frame some detail to keep me out in the bush altogether. Any person who'd wield his official power in a personal matter like this. . . . They used to cut off a knight's spurs with an ax!"

There was little passion in Alan's emotions toward Elizabeth, but there was a sturdy loyalty and a certain blind idealization of her as a girl. In that fatal patrol he and she had suffered a mutual loss of partner, brother. During the eighteen months since then, he had been her only friend here at Endurance, for even Mrs. Drum-

mond, with whom she was living, did not like her. To have a girl so dependent upon him, not only for friendship but for maintenance itself, aroused a very tender and protective attitude in Alan.

But at times, deep in his heart, he was troubled about his engagement to Elizabeth. At times the fear rose in him that their marriage was going to be a terrible mistake. Something lacked in their betrothal; they weren't the deep and intimate friends they should be.

It shocked him to realize he was going into marriage with a girl knowing he did not love her wholeheartedly. In brooding hours, when he thought of another girl in his life, of Joyce MacMillan and his comradely intimacy with her, the old longing for that deeper and richer relationship surged through him. He grew bitter at the secret powerful circumstances which had separated him from Joyce; which he kept locked within himself, telling no one, neither Joyce nor Elizabeth.

Father Claverly, alone of all the people at Endurance, knew that there was something back of that engagement which Alan had kept to himself—some hidden reason, some unalterable fact, that would explain it. At first he had thought that the profound shock of a partner's death had caused Alan to turn to Elizabeth; but with the passing months he became convinced the reason was not that. It was something deeper and more lasting.

With infinite sorrow Father Claverly had seen Alan's comradeship with Joyce break up and had watched the engagement come about. He saw that Elizabeth was a wise, cool-headed girl, very clever at managing relationships for her own ends. In the good priest's opinion the marriage of this cool-headed, calculating girl to a man so sincere and warm-hearted, would be a sorry, sorry pass.

When Elizabeth came in the door, she merely nodded to Alan's warm greeting. In her precise tones she said:

"I want to talk to you, Alan, about something very important to us both. Unless you're too busy. . . ."

Her rebuff hurt Alan. Her coldness, her lack of any passion, were always bewildering to him.

Waiting, painfully aware he could never answer her arguments, he glanced out the window at the river and shimmering pine hills. A mile down the broad Mackenzie a canoe, a small patrol craft with outboard motor, came whipping around a headland.

Alan thought: "That's Bill Haradock coming. And coming wide open. Something's happened."

Elizabeth saw the craft, too. But she glanced only once at it, entirely uninterested. Police work—patrols, arrests, map surveys, treaty money, pelts to be stamped, bickering Indians—all this bored her, now that the novelty of it had worn off.

She loved Alan—with reservations. She admired his natural-born leadership over other men; admired his rugged honesty, especially in contrast to Haskell's lack of it. In their life together Alan would always be loyal to her; she could always depend upon Alan Baker. And he could get her what she wanted of life. Much better than he himself did, he realized he had qualities that would take him far in any other profession: a good intellect, ambition, the ability to work hard, and—most valuable of all—a rare capacity for friendship.

All in all, Elizabeth felt that if only he did not choose to bury himself here in this northern backwoods, Alan Baker was by far the likeliest man, of the four or five she had known well, to lift her out of genteel poverty to a more agreeable plane of life.

(To Be Continued.)

Doorman Knew His Job

The show had started, and Mr. and Mrs. Berry, invited guests of the great actor, were refused admission by the doorman. "But," they protested, "we are the Berrys!"

"Sir and madam," spoke the guardian of the door, whose knowledge of slang was as high. "You couldn't get in here without tickets even if you were the cat's whiskers!"

Many mine strikes have been reported in Scotland this year.

IT'S LIVER THAT MAKES YOU FEEL SO WRETCHED

Wake up your Liver!

—No Calomel necessary

For you feel healthy and happy, your liver is working properly. Without that bile, you would feel wretched.

How can you expect to clear your system of poisons in the body? General weakness, indigestion, constipation, all these are the result of a liver that is not working properly.

You need Carter's Little Liver Pills. Purify your blood. Cleanse your system. Get rid of the poisons. Make your liver healthy.

It does pay to "ROLL YOUR OWN"

From the standpoint of economy—each 20c. package of Turret Fine Cut contains the makings for at least 50 cigarettes—and Chantecler cigarette papers free.

From the standpoint of real smoking pleasure, there's nothing like rolling your own with the smooth, mellow, fragrant Virginia tobacco that you get in the Turret Fine Cut package.

It does pay to roll your own with Turret Fine Cut.

15¢ and 20¢ packages
—also in 1/4 lb.
vacuum tins

FINE CUT
Cigarette Tobacco

FREE Chantecler cigarette papers with every package.

THE RHYMING OPTIMIST

By ALAN MCKENNA

THE TEACHER

There's much to learn from laughter
We could not learn from sighs.
For mirth is kin to morning
And radiant rays alike.

And laughing lips are wisest;
They speak no bitter word.
But send their gladness winging
To heaven like a bird.

For joy can win us friendship
And love which will abide
Long after colder learning
From out our thoughts has died.

Oh, laughter, merry teacher,
Do not forsake us long!
But bring, our ways to brighten,
Your younger brother, song!

There's much to learn from laughter
That tears could never give.
For laughter lends us courage
A fuller life to live!

Canada's Fur Industry

Industry Rapidly Expanding Throughout the Dominion

Despite the fact that the number of fur farms in Canada increased over one thousand to a total of 6,524 for 1930, the total value of investment in land and buildings, \$5,583,846, was \$5,000 less than the preceding year, and the value of fur-bearing animals at \$16,197,747 was \$5,000,000 less than the value in the preceding year. The fur industry is rapidly expanding throughout the Dominion and much valuable assistance to it is given through experimental and research work carried on under the direction of the Dominion Department of Agriculture.

Miller's Worm Powders will not only expel worms from the system but will induce healthy conditions of the system under which worms can no longer thrive. Worms keep a child in a continual state of restlessness and pain, and there can be no comfort for the little one until the cause of suffering be removed, which can be easily done by the use of these powders, which are very effective.

Bolsheviks Must Work

Soviets Will Discharge Workers Who Loaf on the Job

The Soviet government has issued an order discharging all workers who loaf one working day a month from a regular job without valid excuse.

In addition, loafers are deprived of food cards and lodgings. Heretofore workers have been allowed three absences monthly before action was taken against them, but wide abuse of this system has been recently revealed.

Harbin, Manchuria, now has 100 American residents.

See Better Business

United States Advertisers Report Increased Sales

Sales increased approximately 23 per cent in the last three months over the three months immediately preceding, on the basis of reports from more than 50 per cent of the members of the Association of National Advertisers, the annual convention of the association was informed at Atlantic City by Lee H. Bristol, of New York, president.

A large percentage of the increase, he said, was attributable to improved conditions in the trades reporting the rise. Bristol further revealed that 35 per cent of the concerns represented at the convention have planned to increase their advertising appropriations in 1933, while only 22 per cent have planned to decrease these expenditures.

Developed By Chinese

Grapefruit Was Hardly Edible Three Thousand Years Ago

Grapefruit which is now such a popular article of diet, was developed by the Chinese some 3,000 years ago from one of the wild citrus trees with which their country abounds, and whose natural fruits are small and hardly edible.

In the eighteenth century it was taken by an Englishman, Captain Shaddock, to the West Indies and grown there with success. Thence it spread to the United States, whose fruit-growers have given it much attention and have improved it considerably.

Canada's Aspen Poplar

Is One Of Mostly Widely Distributed Trees In Dominion

Aspen poplar is one of the most widely distributed trees in Canada, being found in every province of the Dominion. Its northern limit extends almost to the Arctic ocean, at the Mackenzie delta. From the wood of the aspen are made excelsior, boxes and barrels for foodstuffs, and certain kinds of wood pulp. Lumber made from it is difficult to season and very perishable. In the prairie provinces it is an important source of fuel. — Forest Service, Department of the Interior.

Taking Safe Course

"Will you try some of my angel cake?" asked the young wife of her husband.

"No, thank you," was the reply. "Are you afraid it isn't good enough?" she asked.

"No, I'm afraid I'm not good enough."

"Good enough for what?"

"Good enough to become an angel."

Little Helps For This Week

"Perplexed, but not in despair; cast down, but not destroyed."—Psalm 94: 19.

Discouraged in the work of life, disheartened by its failures or its fears I shrink beside the road— But let me only think of Thee, And then new heart springs up in me.—S. Longfellow.

Never let us be discouraged with ourselves; it is not when we are conscious of our faults that we are the most wicked; on the contrary, we are less so. We see by a brighter light; and let us remember for our consolation, that we never perceive our sins till we begin to cure them.—Fenelon.

Wise mothers who know the virtues of Mother Graves' Worm Exterminator always have it at hand, because it proves its value.

Aluminum is more abundant throughout the world than any other metal. It forms about eight per cent of the earth's crust.

Rents have risen 70 per cent in Copenhagen since 1916.

Bones of the average man weigh 25 pounds.

MATRIMONIAL

SMITH-LAUT
At the home of Mr. and Mrs. J. R. Laut on Thursday, Nov. 24th, their daughter Jeanette was married to Mr. Levi Smith of Rocky Mountain House. Rev. H. Young performed the ceremony and Mrs. Young played the wedding march. After a sumptuous wedding dinner Mr. and Mrs. Smith motored to Calgary for a short honeymoon. They will make their home at Rocky Mountain House.
A large number of valuable and beautiful presents showed the great esteem in which the bride is held.

Statement of Turkey Shoot

Nov. 11, 1932	
RECEIPTS	
23 Turkeys sold and raffled	50.50
Turkey dinner	1.00
Shells sold	9.85
Total	\$60.35
EXPENDITURES	
24 turkeys	30.00
Shells	9.20
Pigeons	10.00
Printing and advertising	4.00
Repairs for trap	.40
Total	\$53.60
Net Profit	\$6.75

Owing to the times the turkeys were raffled for \$2.00, which leaves a very small profit. We also have pigeons enough on hand for another shoot which accounts for the heavy expense this time.

If the person that took the turkey will please leave \$2.00 at the printing office nothing more will be said.

Heard on the Way Home from the East Community Leap Year Dance
Harve: "I have had this car for ten years and never had a wreck."

Mrs. Harve: "You have had this wreck for ten years and never had a car."

The Women's Guild wish to thank all those who helped in any way to make their supper on Nov. 17th the success it was, especially the country people who responded so generously.

G. G. Huser, President of the Crossfield Board of Trade, recently received a letter from Mr. Bills of Van Nuys, California. Mr. and Mrs. Bills were both sick in bed with the flu on election day, but Mr. Bills got out of bed to vote the Democrat ticket, and no doubt due to the excitement of victory, he forgot all about his illness and has been feeling fine ever since.

I SAW

Frank Ruddy overhauling his Ford on Main Street.

Dr. McClelland enjoying himself immensely at the Leap Year Dance.

Russ Nichol buying a bunch of black pigs. A fellow might do worse than to visit Mr. Nichol on Christmas day.

"Shorty" Jones going big at the Leap Year Dance.

A most tempting display of choice meats at the Crossfield Meat Market.

NOTICE

Steve Klejko has closed his business in the Crossfield Meat Market and has left his accounts with A. W. Gordon, Crossfield, for collection.

Sport Notes

The mild weather of past week has put a stop to ice making. Ice-maker Overly is ready to step on it as soon as the weather turns cold. The Men's Curling Club are sure of ten rinks, while the Ladies Curling Club have already got six rinks filled.

The local hockey team, after a poor showing last year, look to be all set for a come-back this season. With Glen Williams as manager, the Indian style of, shooting the puck down the ice and running after it, or hogging the puck until an opponent gets it, is a thing of the past. This kind of home play won't go with the heavy boy.

We understand that Gordon (Porky) Young will be back in a week or two and will again play with the local team. Len Pullan will also be here this winter, and should add considerable strength to the local squad.

LOCAL NEWS

Keep in mind the Dance in East Community Hall on Dec. 9th.

The regular meeting of the Ladies Aid will be held at the home of Mrs. Stralo on December 7.

Mr. and Mrs. Geo. Lem and son Stanley spent the week-end in Calgary.

Fred Patchell was removed to the General Hospital, Calgary on Friday last, and is making satisfactory progress towards recovery.

Mr. and Mrs. J. D. Madill of Foremost spent the week-end the guests of Mr. and Mrs. J. P. Methers.

The Collicutt cattle that made such a clean-up at the Toronto Royal Fair, arrived back in Crossfield on Monday, having made the long trip in good shape.

Mr. and Mrs. R. D. Sutherland attended the silver wedding anniversary of Mr. and Mrs. R. A. Shaw of Carstairs on Monday evening.

The flu epidemic in this district has apparently run its course, and although some are still laid up with it, few new cases are reported this week.

Dances will be held in the Carstairs Hall every Saturday night from 9 until 12. Admission 30c each, tax included. Music by the BELLAMY Orchestra.

Mrs. T. Green who has been on the sick list for some time past, left on Saturday for Calgary and is now a patient in the General Hospital, where she is getting along nicely.

Everett Bills recently showed himself to a radio, and Mrs. Bills states that he is a real radio fan. Why, on Sunday night she could not get him out of the house long enough to go to church.

Mr. and Mrs. R. A. Shaw, well-known residents of the Carstairs district, celebrated the 25th anniversary of their marriage on Monday, Nov. 28. Many of their numerous friends were present to congratulate them and join in the festivities.

There will be a grand dance at New Cremona on Friday, Dec. 3. Drawing for an automobile and other valuable prizes will take place at midnight. Proceeds in aid of the new hall.

Miss Myrtle Methers has recently completed a course in beauty culture has returned to her home here. Miss Methers has taken a complete course, and the ladies of Crossfield and district who require a marcel, finger wave, etc., can get in touch with her by phoning 8609.

The Leap Year Dance in East Community on Friday last was well attended in spite of the prevailing flu epidemic, and the usual good time was had. The ladies seem to it that most everybody had plenty of dancing. Some of the young squirts, who on other occasions, prefer to dance all night with one or two flappers, did not go over so big, and during many of the dances were left as wall flowers.

November has given us a wide variety of weather. We've had sub-zero temperatures, then snow and on top of that we had a chink and over the week-end the snow melted very rapidly. Threshing has been general in the district since Tuesday, but it is colder today (Thursday) and unsettled.

For the third successive time and for the fourth time in six years, Herman Trelle, Wembley, Alta., won the world's wheat championship at the International Grain Show at Chicago. Trelle's winning sample was grown from a special strain of Reward wheat.

LOST—Black tom cat called Luke, Reward if returned to Chronicle office.
